Price of Bread to Be Reduced Within a Few Days.

Hugo Fredericks, manager of Rockwell's Baking Company, to-day promised to did "The Evening World" in securing the reduction, and intimated strongly that within the next few days his firm

forced to pay the same price for bread as when flour was 50 per cent. higher.

The justice of the demand that the price be reduced from five to four cents a loaf has been so forcible that Mr. Fredericks has determined to accode, despite any protestations from his brother bak

any protestations from his brother bake-R.
With such a prominent firm as Rockwell's to break the existing combine, it
is hardly possible that other firms can
keep from failing into line, and within a
few days the public may expect to see
the reduction general all over the city,
thanks to "The Evening World."
It is almost needless to say here what
position Rockwell's Bakery holds in the
bread market. It is one of the largest
and best known in the city, having been
in existence for over a quarter of a century. Many of the poor people on the
east side have reason to know them, and
it will hardly be news to them when they
learn that Rockwell's was the first to
break the mon-polistic combine.
Mr. Fredericks was found at his office
this morning and said: "I am aware
of the light now being made by The
tyconine World," and am also aware
that something must be done. I will say
hight here that I am entertaining the
proposition made by The Evening
World," and will do all in my power to
aid it.
